Academics

The last two decades have witnessed a paradigm shift in technology and management practices leading to an industrial and commercial growth in the entire nation and in Mumbai in particular, The University of Mumbai has taken timely decision to introduce professional / vocational courses to meet the demands of the changing scenario in the society.The College has the proud privilege to offer the programmes some of which have been offered from the year of their inception: Bachelor of Management studies (BMS), and B.Sc. Information Technology (B.Sc. I.T.). Our endeavour is always to try to live up to changing times, and yet strengthening our roots.

Introduction to OES

The strong foundation is inevitable to construct a huge building, similarly, graduation degree is most important to build great career. Corporate sectors are in need of ready – to- employ manpower at supervisory and executive level. **OES, is a college affiliated to University of Mumbai offering B Com, BSc (IT) and BMS courses at Andheri (W).**

The college has innovative and comprehensive method to impart quality education. We believe in 'learning by doing. Our classroom teaching is complemented with outside classroom activities, like field assignments and co-curricular activities. Annual cultural events and sports event is of great attraction for the students. Academic vigor is achieved by conducting crash course and practice tests for University examinations.   **OES** also intends to operate a business venture run by the students, of the students and for the students.

Mrs. Humera J. Khan
President,

From the desk of the General Secretary

Dear Students,

On behalf of the Oriental Education Society (OES), I Extended my warm welcome.
The challenging time of world economy in general and Indian economy in particular demands a paradigm shift in the academic learning and development approach. Since, 1991, we have become global village that have posed fresh opportunities and new threats. Every academic institution has its own culture, values, size and practices, With more than 400 qualified and professionally experienced faculties and around 8000 students, we strive hard to design new pedagogy for reaching, new process for ensuring analytical ability and new approach to evaluate its practical application, Our experienced faculties and dedicated office staff are our strengths who will feel happy to serve you always, Our dedicated staff is aware of the responsibility they have for ensuring our students a positive and fulfilling experience,

The time of six semesters you spend with our institution is precious and cannot be repeated. We recognize the confidence you place in us during this crucial period of your graduation course.

Wish you successful academic career ahead.

Mr. Waseem Khan
General Secretary

OES | EDUCATING TOWARDS EXCELLENCE

PRINCIPAL'S MESSAGE

"Education is not preparation for life, education is life itself"

- **John Dewey**

Dr. Abdul Aziz Shaikh Principal

Dear Students,

We at Oriental Education Society's College of Arts, Science & Commerce aim to nurture the curiosity of our youth and lead them to understand the worth of 'kindness' and humanity as they move ahead in their path of success.

The objective of our college is to provide quality education for excellence with fine exposure to practical knowledge of industry and business houses.

Keeping with the vision, mission and goals set by the founder of the institution, Prof. Javed Khan we are continuously striving to reach to higher and higher level of standard in the field of education.

We at OES try to understand the concepts of our youth, try to tap their potential and help in realization of this potential by careful nurturing and encouragement.

As rightly said, Discipline is the key to success, discipline at OES campus is emphasized and we inculcate in them the value of time- Discipline and punctuality among students, plays a pivotal role in shaping their future and helps them to soar to great heights.

I am proud to say that we have qualified and dedicated teaching staff, good library, spacious classrooms, Gymkhana and well equipped computer lab.

The nerve center of all our endeavors is our students and to nourish this sapling in to a youthful spirited icon of tomorrow is what we all aspire to. Thus at OES the students are nurtured to serve as torch bearers to ignite many more minds and to strive ahead with vision and dedication.

Step 1: Fill in the loan application form

Details such as contact details, details relating to academics etc, it is important to fill in accurate information

Step 2: Personal Discussion

- Round of personal discussion- relating to the academic performance, the course one has selected, probably the institute etc.
- At this stage, it is very important to be lucid and clear about one's selection of course and its future potential of generating income.

Step 3: Provide validated supporting documents

- Documents relating to admissions are mandatory even before the bank considers the loan application,
- The bank will verify the enrolment of the student from the concerned institute.

Step 4: Stage of loan approval

- The guarantor could be an applicant's parents or guardians.
- The bank will run a through check of the guarantor and his / her credit history before sanctioning the loan.
- After completion of the process, the loan may be sanctioned.

Step 5: Borrower's signature on a Promissory Note

- While the parents / guardians are guarantors, the student is the actual borrower of the loan.
- Once the loan is sanctioned, the student has to sign a promissory note to the bank.

Step 6: Disbursal of the loan

- Once the formalities are completed (additional documents and signed post - dated cheques may be required) the bank will disburse the loan.
- The bank may disburse the college / institute fee directly to the concerned institute.

Today, the corporate world is buzzing with cut-throat competition and anyone who has no niche skills is not deemed suitable for the job. This competition calls for professionally qualified graduates in the management sector who can take up the tasks and responsibilities of administrative jobs.

The BMS degree is essential to make students learn the fundamentals of management at the graduation level itself. This way, the students will not only be prepared well for jobs but they will also be able to take specialized masters course with better understanding.

Benefits of B.M.S.

The first and foremost advantage of undertaking a BMS degree is that the students are exposed to the basics of corporate culture. They are taught to analyse and understand the root cause of any crisis and to strategically solve the issue by making use of the available infrastructure.

The students are also made to understand the importance of organizational hierarchy, team work, target-oriented attitude, leadership, problem-solving skills, and promptness in work in the BMS course. This makes them highly compatible for the corporate world.

Why B.Sc.(IT)

A Bachelor of Science in Information Technology, (abbreviated BSIT or B.Sc IT), is a Bachelor's degree awarded for an undergraduate course or program in the Informationtechnologyfield. The degree is normally required in order to work in the Information technology industry.

A Bachelor of Science in Information Technology degree programtypicallytakes three to four years depending on the country. This degree is primarily focussed on subjects such as software, databases, and networking. In general, computer science degrees tend to focus on the mathematical and theoretical foundations of computing rather than emphasizing specific technologies. The degree is a Bachelor of Science degree with institutions conferring degrees in the fields of information technology and related fields. This degree is awarded for completing a program of study in the field of software development, software testing, software engineering, web design, databases, programming, computer networking and computer systems.

Graduates with an information technology background are able to perform technology tasks relating to the processing, storing, and communication of information between computers, mobile phones, and other electronic devices. Information technology as a field emphasizes the secure management of large amounts of variable information and its accessibility via a wide variety of systems both local and world-wide
